

Year 12 school outcomes 2007

All Queensland schools

The 2007 school reports on Year 12 outcomes were published in Queensland metropolitan and regional newspapers on Tuesday 1 April 2008. The data provide a snapshot of school outcomes for students who finished Year 12 in 2007.

The public release of this data is part of the Queensland Government's *Changes to School Reporting* initiative, announced in October 2004. It has been compiled from data provided to the QSA from Queensland schools and the Queensland Tertiary Admissions Centre.

The data show that Queensland's Year 12 students are graduating from high school with the skills and qualifications to follow a range of rewarding work, further education and training pathways.

There are explanatory notes about how to read the table included in the report, and some questions and answers about the data are available.

READING THE TABLE

The dataset is arranged in 17 columns.

1. School

Lists school names. Secondary colleges and TAFE colleges offering Year 11 and 12 are included in this table.

2. Locality

Indicates the city, town or suburb where the school is located.

3. Gender

Indicates if the school is co-educational (C), or enrolls only male (M) or female (F) students.

4. Breadth of curriculum

Shows the number of subject area categories offered by a school, grouped under the following category headings:

Subject area categories

- 1 Agriculture (includes Equestrian Studies)
- 2 Business Education
- 3 Computer Education
- 4 English
- 5 Health and Physical Education
- 6 Home Economics
- 7 Industrial Technology
- 8 Languages other than English
- 9 Mathematics (includes Mathematics/Computing)
- 10 Religious and Ethical Studies
- 11 Science (includes Marine Studies)
- 12 Social Sciences (includes Legal Studies)
- 13 The Arts (includes Art and Performing Arts)
- 14 Tourism and Hospitality

The largest number possible in this column is 14.

5. Number of Certificates of Post-Compulsory School Education (CPCSE)

Students with an impairment or learning disability who have completed at least 12 years of schooling are eligible to receive a CPCSE. Students may receive a Senior Certificate and a CPCSE.

Columns 6–10

Columns 6 to 9 show four stand-alone categories of students awarded Senior Certificates. Student outcomes are grouped according to whether the students were OP-eligible or OP-ineligible, and whether the students completed vocational

education and training (VET) studies. Column 10 is the total of Columns 6 to 9.

OPs place students in one of 25 bands with 1 being the highest and 25 the lowest. An OP (Overall Position) indicates a student's position in a statewide rank order based on overall achievement in Authority subjects and is used in the selection of students for tertiary education courses.

To be OP-eligible, a student must study 20 semester units of credit in Authority subjects with at least three subjects taken for four semesters. Students must also complete Year 12 and sit for the Queensland Core Skills Test.

6. OP-eligible with no VET qualification

Shows the number of OP-eligible students who did not gain any VET qualifications.

7. OP-eligible with one or more VET qualification

Shows the number of OP-eligible students who completed one or more VET qualifications. Numbers in this column may include students who have completed VET competencies.

VET qualifications are achieved when a student completes the required units of competency. VET units of competency are the building blocks of vocational study.

School-based apprentices who have completed the maximum proportion of their apprenticeship allowed at school, and who were also OP-eligible, are reported in this column.

8. OP-ineligible with no VET qualification

Shows the number of students who were not eligible for an OP and did not gain a VET qualification.

Numbers in this column may include students who have successfully completed VET in school competencies but not in sufficient quantities or in a sequence to achieve a VET qualification.

9. OP-ineligible with one or more VET qualification

Shows the number of students who were not eligible for an OP but have completed sufficient VET competencies to be awarded one or more VET qualifications.

School-based apprentices who have completed the maximum proportion of their apprenticeship allowed at school, and who were not eligible for an OP, are reported in this column.

10. Total Senior Certificates awarded

This total is the sum of the numbers in columns 6 to 9. It shows the total number of Senior Certificates awarded at the school.

11. Number of students completing VET competencies

Shows the number of students completing at least one VET module or unit of competency.

12. Number of VET qualifications awarded

Shows the number of VET qualifications awarded. Some students may receive more than one VET qualification. Numbers in this column could therefore exceed the number of students at the school who undertook VET studies.

13. Number of students completing/continuing a school-based apprenticeship or traineeship (SAT)

Shows the number of students who completed a SAT or who may choose to complete it at TAFE or a VET private provider after finishing school.

SATs allow students to work with an employer and train towards achieving nationally recognised VET qualifications while completing their senior studies.

14. Percentage of OP-eligible students with OP 1 to 15

Shows the percentage of students at each school who receive an OP between 1 and 15. Around 80% of all OP-eligible students in the OP1 to 15 range are offered a tertiary place through the Queensland Tertiary Admissions Centre (QTAC).

15. Percentage of students with Senior Certificates with one or more VET qualification

Shows the percentage of the total number of students per school who received a Senior Certificate and also achieved one or more VET qualifications.

16. Percentage of students with Senior Certificates with OP-eligibility or with one or more VET qualification

Shows the percentage of the total number of students gaining a Senior Certificate per school who received an OP and/or at least one VET qualification.

17. Percentage of QTAC applicants receiving a tertiary offer

Shows the percentage of students applying for a tertiary place through the Queensland Tertiary Admissions Centre (QTAC) who received an offer of a tertiary place through QTAC. The percentage of students entering VET courses is understated because QTAC data on VET include only full-time students entering a VET diploma. The dataset does not include part-time diplomas and certificates and apprenticeships and traineeships.
