

## District and state Year 11 monitoring meetings 2014 (except extension district review panels)

### Purpose

To inform staff and members of state and district review panels about the schedules and venues for the 2014 February monitoring meetings.

### Background

Monitoring is the process by which review panels consider a school's implementation of a course and assessment decisions in subjects after approximately half of the course of study has been completed.

Schools select five folios of student work for all Authority subjects offered at the school. Typically, one folio for each proposed interim level of achievement is submitted.

### Meeting dates

State and district meetings will be held during the period 17–21 February 2014, except in the:

- Wide Bay district, where meetings will be held on 14 February.
- Rockhampton and Mackay districts, where meetings will be held on 24 February.

### Travel arrangements

Panellists who require travel or accommodation bookings for verification meetings should complete the travel booking form and return it to district offices by Friday 31 January 2014. State panellists should return forms to the Queensland Studies Authority, marked for the attention of the Coordinator (State Panel Operations).
