

Opportunities

- Future readiness**  
We will use evidence, expert judgment and collaboration to lead thinking and action to support learners in an increasingly complex world.
- Connection and engagement**  
We will invest in our stakeholder relationships with timely information-sharing and collaboration.
- Responsiveness**  
We will use emerging technologies to enable innovative, adaptive solutions that respond to educational needs.
- Enhanced capability**  
We will attract and retain dedicated people who represent a diverse range of experiences and perspectives, equipping them with the skills they need to contribute to our work, now and into the future.
- Operational sustainability**  
Build long-term public trust through transparency and accountability.

Strategic risks

- Dynamic education environment**  
We will engage with emerging state and national education trends and policy reforms, to anticipate change, influence direction, and prepare students for the future.
- Rapid technological transformation**  
We will monitor the technological landscape to ensure school curriculum, assessment and certification are contemporary and responsive, and promotes integrity.
- Workforce challenges**  
We will respond to changing community and workforce demands by embracing new insights, prioritising succession planning and reducing red tape.
- Information security**  
We will investigate, manage and implement leading information security practices and controls to actively protect our systems, ensure data integrity and maintain stakeholder trust.
- Organisational resilience**  
Continue to enhance and strengthen business continuity and disaster management processes.

We will respect, protect and promote human rights in our decision-making and actions.
