## Infer

a conclusion reached on the basis of evidence or reasoning

#### The process of inferring

# Before inferring:

determine what is being asked

## **Identify**

the specific evidence at hand

### Determine

meaning from the patterns and/or make connections in the evidence

### Use

evidence and reasoning to draw conclusions

## After inferring:

check whether the conclusions are reasonable based on the evidence at hand

#### **Sentence starters**

- It can be concluded that ...
- From the evidence it can be established ...

- The connections between ... and ... are ...
- The evidence implies ...
