

Year 7 standard elaborations — Australian Curriculum v9.0: English

Purpose

The standards elaborations (SEs) support teachers to connect curriculum to evidence in assessment so that students are assessed on what they have had the opportunity to learn. The SEs can be used to:

- make consistent and comparable judgments, on a five-point scale, about the evidence of learning in a folio of student work across a year/band
- develop task-specific standards (or marking guides) for individual assessment tasks
- quality assure planning documents to ensure coverage of the achievement standard across a year/band.

Structure

The SEs have been developed using the Australian Curriculum achievement standard. The achievement standard for English describes what students are expected to know and be able to do at the end of each year. Teachers use the SEs during and at the end of a teaching period to make on-balance judgments about the qualities in student work that demonstrate the depth and breadth of their learning.

In Queensland, the achievement standard represents the C standard — a sound level of knowledge and understanding of the content, and application of skills. The SEs are presented in a matrix where the discernible differences and/or degrees of quality between each performance level are highlighted. Teachers match these discernible differences and/or degrees of quality to characteristics of student work to make judgments across a five-point scale.

Year 7 Australian Curriculum: English achievement standard

By the end of Year 7, students interact with others, and listen to and create spoken and/or multimodal texts including literary texts. With different purposes and for audiences, they discuss, express and expand ideas with evidence. They adopt text structures to organise, develop and link ideas. They adopt language features including literary devices, and/or multimodal features and features of voice.

They read, view and comprehend texts created to inform, influence and/or engage audiences. They identify how ideas are portrayed and how texts are influenced by contexts. They identify the aesthetic qualities of texts. They identify how text structures, language features including literary devices and visual features shape meaning.

They create written and/or multimodal texts, including literary texts, for different purposes and audiences, expressing and expanding on ideas with evidence. They adopt text structures to organise, develop and link ideas. They adopt language features including literary devices, and/or multimodal features.

Key shading emphasises the qualities that discriminate between the A–E descriptors

* creation (also create): To imagine or conceive, develop or produce (in print or digital form) spoken, written or multimodal texts and **edit** (see definition that follows) and publish work for an audience. | edit: To prepare, alter, adapt or refine with attention to grammar, spelling, punctuation and vocabulary.

[†] language features: Features that support meaning (e.g. clause- and word-level grammar, vocabulary, figurative language, punctuation, images). Choices vary for the purpose, subject matter, audience and mode or medium.
