

Prep–Year 10 and Years 7–10 (Year 7 entry sequence) German

Australian Curriculum Version 9.0: Sequence of achievement standards aspects and related content descriptions

Languages is presented in two sequences that offer different entry points into language learning: from Prep to Year 10 or Year 7 to Year 10. This resource provides both the sequence of the achievement standards aspects, with related content descriptions, for Prep–Year 10 German, and Years 7–10 German (Year 7 entry sequence), for the Second Language Learner Pathway, organised by strands.

By breaking each achievement standard into discrete aspects and including aligned content descriptions, the increasing complexity of the achievement standard can be seen across Prep–Year 10. This supports teachers to identify the knowledge, understanding and skills that come before and after the enrolled year level/band.

When planning teaching, learning and assessment, teachers can use this resource to:

- plan for the range of learners within a single year level or band
- determine appropriate curriculum access points for all students
- better understand aspects of achievement standards through consideration of where they are introduced, their progression and where they conclude.

The following key has been used to assist teachers to identify the sub-strand for each content description.

Key	Foundation German/ Interacting in German	Mediating meaning in and between languages	Creating text in German	Understanding systems of language	Understanding the interrelationship of language and culture
