Communicating meaning in Spanish	By the end of Year 8, students use Spanish language to interact and collaborate with others, and to share information and plan activities in familiar contexts. They respond to others' contributions, and recognise familiar gestures, questions and instructions in exchanges. They recognise relationships between spoken and written forms. They locate and respond to information in texts and use non-verbal, visual and contextual cues to help make meaning. They respond in Spanish or English, and demonstrate understanding of context, purpose and audience in texts. They use familiar language, and modelled sentence and grammatical structures to create texts.	By the end of Year 10, students initiate and sustain Spanish language to exchange and compare ideas and experiences about their own and others' personal world. They communicate using non-verbal, spoken and written language to collaborate, plan and reflect on activities and events. They interpret and analyse information and ideas in texts and demonstrate understanding of different perspectives. They synthesise information and respond in Spanish or English, adjusting language to convey meaning and to suit context, purpose and audience. They use structures and features of spoken and written Spanish to create texts.
Understanding language and culture	Students approximate pronunciation and intonation in spoken Spanish. They demonstrate understanding that Spanish has conventions and rules for non-verbal, spoken and written communication. They comment on aspects of Spanish and English language structures and features, using metalanguage. They demonstrate awareness that the Spanish language is connected with culture and identity, and that this is reflected in their own language(s), culture(s) and identity.	Students apply features and conventions of spoken Spanish to enhance fluency. They select and apply knowledge of language conventions, structures and features to interact, make meaning and create texts. They support discussion of structures and features of texts, using metalanguage. They reflect on their own language use and cultural identity, and draw on their experience of learning Spanish, to discuss how this learning influences their ideas and ways of communicating.
