

Years 5–6 standard elaborations — Australian Curriculum v9.0: Media Arts

Purpose

The standards elaborations (SEs) support teachers to connect curriculum to evidence in assessment so that students are assessed on what they have had the opportunity to learn. The SEs can be used to:

- make consistent and comparable judgments, on a five-point scale, about the evidence of learning in a folio of student work across a year/band
- develop task-specific standards (or marking guides) for individual assessment tasks
- quality assure planning documents to ensure coverage of the achievement standard across a year/band.

Structure

The SEs have been developed using the Australian Curriculum achievement standard. The achievement standard for Media Arts describes what students are expected to know and be able to do at the end of each year/band. Teachers use the SEs during and at the end of a teaching period to make on-balance judgments about the qualities in student work that demonstrate the depth and breadth of their learning.

In Queensland, the achievement standard represents the C standard — a sound level of knowledge and understanding of the content, and application of skills. The SEs are presented in a matrix where the discernible differences and/or degrees of quality between each performance level are highlighted. Teachers match these discernible differences and/or degrees of quality to characteristics of student work to make judgments across a five-point scale.

Years 5–6 Australian Curriculum: Media Arts achievement standard

By the end of Year 6, students explain how media languages and media technologies are used in media arts works they construct and/or experience. They describe how media arts works created across cultures, times, places and/or other contexts communicate ideas, perspectives and/or meaning. They describe how media arts are used to continue and revitalise cultures.

Students use media languages, and media technologies and production processes to construct representations in media arts works for specific purposes and audiences. They present their work in informal and/or formal settings using responsible media practice.
