

Years 9–10 assessment techniques and conditions

The Arts — Visual Arts

This document outlines assessment techniques and response conditions that could be used to achieve range and balance within an assessment program. Schools should consider the local context, and the age and capabilities of the students, when selecting appropriate assessment techniques, modes and response conditions.

Techniques

Description	focuses on responding to a problem, question, stimulus and/or series of focused tasks within a scenario or context. This may involve using a process to solve a problem, or to inform new actions and/or understandings.		focuses on responding in a detailed way to a task or stimulus for a purpose and/or audience. It may occur over an extended period. While students may undertake some research when creating their response, it is not their focus.	focuses on responding independently to seen or unseen assessment item/s under supervised conditions and in a set timeframe. Assessment items may include question/s, scenario/s and/or problem/s.
