

# Redeveloped Applied syllabuses: Planning day workshops

## Purpose

To inform schools about professional development workshops in Terms 2 and 3, 2023 to support implementation of the redeveloped Applied syllabuses.

## Background

Following a review and revision process that started in 2020 and public consultation in 2022, the QCAA Board approved the suite of redeveloped Applied syllabuses in late 2022. Schools can implement these syllabuses with Year 11 students from 2024. The syllabuses are available on the [QCAA website](#).

## Information

The QCAA invites subject teachers and curriculum leaders to join us in Terms 2 and 3, 2023 for a day of familiarisation and planning with the 2024 Applied syllabuses. These workshops are organised by learning area and should assist participants to understand the changes in the redeveloped syllabuses and lead curriculum conversations in their schools.

Due to venue capacities, only two representatives per school can attend each workshop. The workshops offered in Term 2 are identical to those offered in Term 3 so different teachers from a school can attend.

Details about the workshop dates, venues, content, what to bring and how to register are available via the links below:
