## Essential Learnings

### Ways of working

These describe the essential processes that students use to engage in learning, and to develop and demonstrate their knowledge and understanding.

### By the end of Year 7

#### Studies of Society & Environment

Students are able to:
- identify issues and use common and own focus questions
- plan investigations using inquiry models
- collect and analyse information and evidence from primary and secondary sources
- evaluate sources of information and evidence for relevance, reliability, origins and perspective
- draw conclusions and make decisions based on information and evidence by identifying patterns and connections
- communicate descriptions, decisions and conclusions, using different text types for specific purposes and the conventions of research-based texts
- respond to investigation findings and conclusions by planning and implementing actions
- reflect on and identify different perspectives, and recognise and clarify beliefs and values relating to social justice, the democratic process, sustainability and peace
- reflect on learning, apply new understandings and identify future applications.

#### Health & Physical Education

Students are able to:
- identify issues and plan investigations and activities
- collect, analyse and evaluate information and evidence
- draw conclusions and make decisions supported by information and evidence
- propose, justify, implement and monitor plans or actions to promote health and wellbeing, movement capacities and personal development
- apply movement concepts and make purposeful refinements to movement skills
- create and perform movement sequences through modifying and combining movement skills and applying movement concepts
- identify risks and justify and apply safe practices
- select and demonstrate appropriate personal development skills and strategies in team and group situations
- reflect on and identify the impact of diverse influences on health and wellbeing, movement capacities and personal development, including the best use of positive influences
- reflect on learning, apply new understandings and identify future applications.

#### The Arts

Students are able to:
- select and develop ideas for arts works, considering intended audiences and intended purposes, and make decisions about arts elements and languages
- create and shape arts works by modifying arts elements to express purpose and to include influences from their own and other cultures and times
- modify and polish arts works, using interpretive and technical skills
- present arts works to informal and formal audiences for intended purposes, using arts techniques, skills and processes
- identify, apply and justify safe practices
- respond by analysing and evaluating arts works in social, cultural, historical and spiritual contexts, using arts elements and languages
- reflect on learning, apply new understandings and identify future applications.

#### Technology

Students are able to:
- investigate and analyse the purpose, context, specifications and constraints for design ideas
- generate and evaluate design ideas and determine suitability based on purpose, specifications and constraints
- communicate the details of designs showing relative proportion, using labelled drawings, models and/or plans
- select resources, techniques and tools to make products that meet specifications
- plan and manage production procedures and modify as necessary
- make products to meet specifications by manipulating and processing resources
- identify risks and justify and apply safe practices
- evaluate the suitability of products and processes for the purpose and context, and recommend improvements
- reflect on and identify the impacts of products and processes on people, their communities and environments
- reflect on learning, apply new understandings and identify future applications.

| Beginner       | • identify the purpose or main topic in simple spoken and written texts, using visual and verbal language  
• respond to familiar statements and questions in simple conversations and discussions, using key words, phrases and memorised material  
• identify and use non-verbal communication strategies in familiar contexts  
• construct simple spoken and written texts in familiar contexts  
• notice and compare aspects of the target language and English and/or other familiar languages  
• notice and compare aspects of their own cultures and of the target cultures  
• reflect on and evaluate the suitability of language choices in familiar contexts  
• reflect on learning to identify new understandings and future applications.  
• reflect on learning, apply new understandings and identify future applications.  
• interpret a range of spoken and written texts in different contexts where familiar and some unfamiliar language is used  
• interpret and respond by manipulating some elements of language to contribute to conversations for different purposes, contexts and audiences  
• recognise and use appropriate verbal and non-verbal language to support the development of communicative competence  
• select and apply strategies to adjust verbal and nonverbal language for a variety of purposes, contexts and audiences, and respond appropriately to feedback  
• construct simple, cohesive spoken and written texts for different contexts, displaying some concept of register  
• notice and compare similarities and differences between the target language and English and/or other familiar languages  
• notice and compare their own beliefs, attitudes and practices and those reflected in the target culture  
• reflect on and evaluate the suitability of language choices for purpose, context and audience  
• reflect on and evaluate the appropriateness of their own and others’ language choices in target language texts for purpose, context and audience  
• reflect on and evaluate learning to evaluate and apply new understandings and future applications. |
| Elementary     | • interpret ideas and information in spoken and written texts and make judgments about the ways that people, places, events and things are represented  
• locate, analyse and respond in the target language to information on topics and issues of significance to members of the target cultures of a similar age  
• plan, monitor and adjust verbal and non-verbal language to suit the role, purpose, context and audience  
• construct spoken and written texts that present an argument, perspective or opinion  
• recognise that texts are culturally constructed, and analyse embedded cultural information  
• notice and compare similarities and differences in text formats, language and style between similar texts in the target language and English, and/or other familiar languages, to inform intercultural communication  
• notice and compare beliefs, values and practices in target language texts to identify the author’s purpose and audience  
• reflect on and evaluate the appropriateness of their own and others’ language choices in target language texts for purpose, context and audience
