

Information for schools

Windows, MAC, iPad devices - New locked down browser for 2023

- A new NAP locked down browser (LDB) is available for Windows, Mac and iPad devices for NAPLAN 2023 and will offer an improved user experience for schools and students.
- It can also be used for Low No Bandwidth (LNB) schools.
- The new browser is available for schools to download on the Assessform website from 30 November.
- It must be installed on all Windows, Mac and iPad devices being used for NAPLAN 2023.
- Previous Windows, Mac and iPad LDB and Replay apps used in NAPLAN 2022 must be uninstalled.
- Schools can confirm that they have installed the correct version of the LDB on their devices by checking its icon (below) is green for 2023.

Information for schools

Chromebook – no changes to locked down browser for 2023

- Chromebook devices continue to use the NAP locked down browser (LDB) used for NAPLAN 2022
- Schools who already have this browser installed on Chromebooks do not need to reinstall it.
- Schools with Chromebooks that don't yet have the locked down browser installed can download the LDB from the Assessform website.
- Schools using Chromebooks can confirm that they have installed the correct version of the LDB on their devices by checking its icon (below) is white with blue writing.
