

# NAPLAN — Year 5 Literacy

## Set 3 — Sample Language conventions test answers

### About the sample Language conventions test

The formats and response types in these practice items for spelling, grammar and punctuation are similar to those used in the real tests. To prepare students for the test, be sure they understand that:

- spelling questions are in two proofreading formats and in both cases the target word is presented with a misspelling
- the grammar and punctuation questions are about formal, written Australian English, not oral speech habits. When they are told to “correctly complete” a sentence, students must think about conventional grammar, vocabulary and punctuation.

Teachers in all subject areas should note the types of spelling skill that are involved in the spelling questions and use standard teaching and assessing practices to target these. In particular, they should use dictation exercises rather than NAPLAN format involving correction of intentionally misspelled words and they should use writing tasks in which the vocabulary and spelling demands are highlighted and assessed. Similarly for grammar and punctuation, teachers should take note of the skills involved in this sample text then derive more holistic lessons in which grammar and punctuation are taught and assessed as part of authentic tasks of written communication and formal oral expression.
