External assessment 2022

## SEE 1: Extended response (35 marks)

### Assessment objectives

This assessment instrument is used to determine student achievement in the following objectives:

1. comprehend Chinese to understand information, ideas, opinions and experiences related to relationships, roles in society, socialising and societal issues and ideas, and/or future plans and responsibilities
2. identify tone, purpose, context and audience to infer meaning, values and attitudes related to relationships, roles in society, socialising and societal issues and ideas, and/or future plans and responsibilities
3. analyse and evaluate information and ideas to draw conclusions and justify opinions, ideas and perspectives related to relationships, roles in society, socialising and societal issues and ideas, future plans and responsibilities
4. apply knowledge of Chinese language elements, structures and textual conventions to convey meaning appropriate to context, purpose, audience and cultural conventions related to relationships, roles in society, socialising and societal issues and ideas, future plans and responsibilities
5. structure, sequence and synthesise information to justify opinions, ideas and perspectives related to relationships, roles in society, socialising and societal issues and ideas, future plans and responsibilities
6. use strategies to maintain communication and exchange meaning in Chinese to discuss relationships, roles in society, socialising and societal issues and ideas, future plans and responsibilities with peers and Chinese-speaking community members.

## Purpose

This document consists of a marking guide.

The marking guide:

- provides a tool for calibrating external assessment markers to ensure reliability of results
- indicates the correlation, for each question, between mark allocation and qualities at each level of the mark range
- informs schools and students about how marks are matched to qualities in student responses.

## Mark allocation

Where a response does not meet any of the descriptors for a question or a criterion, a mark of '0' will be recorded.

Where no response to a question has been made, a mark of 'N' will be recorded.
