## Assessment pyramid

## Essential Mathematics

Level 4: Knowledge utilisation

- justify procedures and decisions by explaining mathematical reasoning
- evaluate the reasonableness of solutions

Level 2: Comprehension

- communicate using mathematical, statistical and everyday language and conventions
- comprehend mathematical concepts and techniques

## Level 1: Retrieval

- select, recall and use facts, rules, definitions and procedures
solve problems by applying mathematical concepts and techniques

[^0]
[^0]:    Adapted from Verhage \& de Lange (1997) and Marzano \& Kendall (2007).
