

Assessment highlights 2021

French

Internal assessment 3

Extended response

Christopher Ktenidis

Matthew Flinders Anglican School

Assessment overview

Context

In this unit, students studied the syllabus topics of Finishing secondary school, plans and reflections, and Responsibilities and moving on.

Students were provided with three stimulus texts to assist with the preparation of their response and a target audience was identified for their presentation.

The extended response was comprised of two parts. Part 1 required students to prepare a 4–8 minute multimodal presentation, while in Part 2, students participated in 5–7 minutes of conversation in French.

Task

Students were asked to analyse the stimulus items to develop a multimodal presentation that expressed a personal perspective in response to a question. The question focused on the challenges and opportunities faced by young people as they leave school and transition to the next life phase.

To support their analysis, students were required to identify tone, context, purpose and audience in their response.

Student response

Note: The following sample is an unedited authentic student response reproduced with permission. Any images or sources that do not have copyright approval have been redacted from the response. It may contain errors and/or omissions that do not affect its overall match to the characteristics indicated in the top performance levels of the instrument-specific marking guide.

The student response has been uploaded as two video files, available at www.qcaa.qld.edu.au/senior/assessment/assessment-highlights/french/video-presentation.
