## 2016 Year 12 Outcomes and school reports

### Purpose

To inform schools that an updated learner report has been posted to the school's secure website for downloading. This information will be used when the 2016 Outcomes report is published on February 18.

### Background

In November and December 2016 principals were:

- provided with draft information in school-specific reports available from the secure QCAA website
- asked to compare the information on the report with their own data and advise QCAA of any inaccuracies.

The QCAA has since published updated versions of school learner reports for each school.

### What you need to do

Please check this data and report any final amendments by February 3. We will endeavour to include all changes in the Outcome report published on February 18. Any changes not able to be actioned will be included in subsequent updates to the published report.
